1st lady Can't go on

i can't go on living without you

i can't go on without seeing you smiling, baby

i can't go on living without you

i can't go on without feeling you in my arms

sometimes people make mistakes in there life

but why do we have to end things this way

i guess i'm trying to say

that i really miss your loving (miss your loving)

and i really miss ya hugging(i miss your hugging)

every day (ego)

i stay a wake every night

i wonder if i'll never find mister right

i know that we fight

but then i try to see myself

with someone else

but i always see myself

running back to you, baby

can't go on living without you

all the times i said that i doubt you (i doubt you)

be there I swear it doesn't mean a thing and you mean everyting

to me when you're close yo me

i get chills cause it feels so real

i can't resist

boy i need your kiss

i just can't go on like this

i'm trying to fight my tears
holding back after all these years
i loose myself if you walk away from me
again
cuz I gave you my heart and that's just a piece of it
I loved you from the very start
and that love will never go away
i'm missing you every day
you're gone
since you went away
i been lost
and when my phone rings
i hope it's your call
but i just keep wishing, but they just don't come true
and all of this makes me sad
It don't help
and then I end up getting mad..myself
tell me baby why you wanna make me feel like that

can't go on living without you
all the times i said that i doubt you (i doubt you)
be there I swear It doesn't mean a thing
and you mean everyting
to me when you're close yo me
i get chills cause it feals so real
i can't resist
boy i need your kiss
i just can't go on like this

after all the time that past
i do want you in my live
you were my first love

and i want you to be my last
i still remember all off the morning
we laid in bed together and laugh
i wish that would last forever
please come back to me
all i have are old memories
days of you and me
i wish you just come back to me
i remember every second you're gone
and i'm sitting alone every nite
Write me stupid love songs
BABY COME BACK TO ME
i know that things have changed
(they've changed)
i know you're in a different face now
But i'm willing to change to see my place
you're the only man i've ever loved
boy you, I never knew love
how can you walk away and never look back
NEVER LOOK BACK!

can't go on living without you
all the times i said that i doubt you
be there I swear
It doesn't mean a thing and you mean everyting
to me when your close yo me
i get chills cause it feals so real
i can't resist
boy i need your kiss
i just can't go on like this

i can't go on living without you
i can't go on without seeing you smiling

i can't go on living without you

i can't go on without see you smiling baby

can't go on living without you

all the times i said that i doubt you (i doubt you)

be there I swear

it doesn't mean a thing and you mean everyting

to me when your close to me

i get chills cause it feals so real

i can't resist

boy i need your kiss

i just can't go on like this
