### Breathe In Time

Here I am, open wide.

I'm just as scared as you, about last night have we come under.

I don't care it's wrong alright.

You're all I need to sleep at night.

In my arms you belong..

And everytime I think about you leaving, I can't pretend that I'm not afraid. Can we put the past behind and

We gotta take one stap back, to get one stap closer baby.

We gotta cross one more bridge to see what's on the other side.

I wanna have one more chance to prove that I am good enough for you.

We gotta take one more breath to breachte in time!

Morning brings another day.

It hurts me when I see the empty space

and the bet we made..

And everytime I think about you leaving,

I can't pretend that I feel no pain.

Can we put the past behind start over again..

We gotta take one stap back, to get one stap closer baby.

We gotta cross one more bridge to see what's on the other side.

I wanna have one more chance to prove that I am good enough for you.

We gotta take one more breath to breachte in time!

Everynight when I'm lying down on are you the last thing I'm gonna see.

Get a realize, you and I was said a lot of words we didn't mean!

We gotta take one stap back, to get one stap closer baby.

We gotta cross one more bridge to see what's on the other side.

I wanna have one more chance to prove that I am good enough for you.

We gotta take one more breath to breachte in time!

aahaaa

We gotta take one more breath to breathe in time!

aahaaa

ooohooo
