If We Fall In Love

Ooooooohhh...

There will be no ordinary days for you
'Cause there is someone that cares like I do
You will have no reason to be sad anymore
I am always ready with a smile
With just one glimpse of you

Refrain:

You don't have to search no more
'Cause I am someone who will love you for sure

Chorus:

So if we fall in love maybe we'll sing this song as one
If we fall in love we can write a better song than this
If we fall in love we will have that melody in our head
If we fall in love anywhere with you would be a better place

You can watch that movie in a different light
I will be right there beside you hugging you oh so tight (oh so tight)
How can love feels so cold and empty again
And I will keep on holding on and won't let go (and won't let go)

Repeat Refrain

Repeat Chorus

Coda:

Feel so good when you're around

One smile from you (one smile from you) and I just feel so bright

Repeat Chorus
