# Love In Rewind

One to hundred  
multiplied by you  
it all looks great  
it all looks good

Healthy children  
go to school  
My daughter's in love  
my son loves too

Oh, on the surface...  
oh, in the distance...  
it's all the same.

Oh, in the darkness...  
oh, don't you notice  
what a different game

REF.  
If you take this life  
from me today  
take it up and bury me away.

For just one,two, three songs of mine,  
hundred worries of mine..  
your love, your love in rewind.

For just one,two, three songs of mine,  
hundred worries of mine..  
and love, love in rewind

Sito, sito, sito, sito

One to hundred  
multiplied by two  
it's less about me,  
it's less about you.

To keep it running  
on serpentine, i don't know  
where to run from reality.

REF.
