# Look To Love

It was a time to do it right  
Every step when you were preparing to say goodnight  
It was a hard to kiss you  
Even harder to say goodbye  
But tonight you are mine  
Let's make the sky shine  
In the colours of ours  
In the colours of love.

?

I love you it is a word to say  
I mean it  
I ment it from the day we met  
And I will keep saying that  
My feelings are stronger and stronger  
I hoped we will met again.

?

Look us today  
This is me  
You are here sittin next to me  
Your heart is laying next to mine  
Your head on my shoulders  
We waited for that

No force  
No enemy could set us appart  
Only if we wish that  
But that is the last  
Our dream coming true  
Before we fallasleep  
Say I love you  
And kiss

Kiss me like on beggining under the bridge  
So softly  
So beautiful to dream of

You are now my dream in reality never wish to end  
My last spoken word to you will be  
As I said  
What was I said to you?

In the future of the time  
You will be sleeping next to mine  
Last word I will said  
I love you girl  
From the day we met.
