There is one little thing
We all want to become true
The truth is first
So are you
And I wanna only play
But not with your heart
I wanna play with you
All day night

Promise me that everything is real
Every f***** moment between you and me
That you stay true till we collapse
I love you more
The word that lasts

Can you give me a smile
Can you give me a kiss
Can you give me a hug
Can you tell me you are mine
Can you show me the mean of love
Can you tell me that you are minee
Can you give me a kiss
Can you give me a hug

All this pretty things
We done together
Is it fake
Or it will lasts forever
Forever they say
I believe it, yes
You love me more

Do I love you
Guess

Tell me you belong only to me
So I can safely reach the top
Without insecurities
Without fake shots
Kiss me, love me
Never say goodbye

And one last thing
I love you, yes
Ofcourse you guess
With mind pretty and heart of yours
You are perfect to me
I see you just like you see yourself
But you are still perfect to me
I love you
Yes I do
I love you more

Can you give me a smile
Can you give me a kiss
Can you give me a hug
Can you tell me you are mine
Can you show me the mean of love
Can you tell me that you are minee
Can you give me a kiss
Can you give me a hug

I know you can :)
