

Rod Stewart

Stay With Me

We're in love
And we're alone
The silence spoke
And told me so
Stuck in the middle
Of a restless heart
No place else to go

Feeling you
Overtime
I hear your thoughts
Inside my mind
And I'd be crazy
If I let you go
Darling you should know...
I wanna love again
I wanna feel this way
Stay with me
I won't leave you lonely
And let tomorrow come
We've only just begun
Stay with me
Oh stay with me

I'd been lost
In no man's land
Til the day you took my hand
And led me gently
To the other side
Now I understand

I wanna love again
I wanna feel this way
Stay with me
I won't leave you lonely
And let tomorrow come
We've only just begun
Stay with me
Oh stay with me

Let love pass this way again...
Love is the answer
The fever and the cure
It's burning inside of me
And darling now I know for sure

I wanna love again
I wanna feel this way
Stay with me
I won't leave you lonely
Love is the key
Love is the key
Stay... Stay
I wanna love again
I wanna feel this way
Stay with me
Let love pass this way again.
